Show Me How
Handmade Paper Screen

by Wesley Vogel

Paper World South Africa

Requirements

- Thick card board
- A variety of sheets of handmade paper
- Photos or pictures the same size as your frames
- Glue
- Scissors
- Paper punch
- Metal rings
- Pliers

Instructions

Step 1
Cut square frames out of a thick paper board.

Step 2
Cover the outside of the frames in your choice of paper.

Step 3
Print out photos or pictures that you like on handmade paper, allowing for a 1cm edge all around, so that photos fit properly inside the frames.

Step 4
Cut the photos out and paste the pictures on the inside of the frames.

Step 5
If need be, paste another paper covered frame on the back of the picture, to make it a double sided frame.

Step 6
Arrange the frames alongside each other as you desire, then punch 1 hole in each outside corner of the frames so that you can connect them together to form a screen or wall hanging.

Step 5
Connect the frames together with metal rings, using pliers to open and close the rings.

So much more to life...
