STEP-BY-STEP INSTRUCTIONS

Mosaic Jewelry Box

By Ursula Janke

The Clay Club

Requirements

- Wooden box
- Acrylic paint and paint brush
- Ceramic tile inserts tiny flowers and vintage lady
- Wood glue
- Grout
- Tile cutters
- Mosaic tiles purple, yellow and white

Instructions

Step 1

Paint the wooden box, 2 thin even coats should be enough. Let it dry for a few hours.

Step 2

Place the vintage lady ceramic insert in the middle of the box, use your square tiles as the border. Glue them down, to keep them in place.

Step 3

Cut the mosaic tiles to fill in the gaps around the vintage lady insert. Make sure all the spaces are filled with tiles.

Step 4

Leave the project to dry overnight to ensure that the glue is completely dry before grouting.

Grout as follows:

- Mix grout with water, adding a little at a time until the consistency of your grout is similar to that of peanut butter.
- Apply the grout over the complete mosaic area, ensuring that the grout fills up the gaps between the tiles.
- Scrape off the excess grout with a rubber squeegee or similar tool and sprinkle some dry grout powder over the mosaic. This will absorb the moisture in the grout mixture and speed up the drying process.
- Leave the grout powder on your design for about 3 minutes then wipe clean with a paper towel.

Step 5

Once you have grouted, glue the flowers onto the four corners. Your project is now complete.

So much more to life...
