STEP-BY-STEP INSTRUCTIONS

Painting the table

By Nadine Vosloo

Paint Masters

Requirements

- Wooden table
- Thinners
- Cloths
- Paint brush
- Tjhoko Glaze

Instructions

This technique works best on raw wood surfaces or Tjhoko painted surfaces. The wood needs to absorb the moisture. If there is varnish or sealant on the surface you want to paint, first sand it down a bit to create the desirable condition for this technique.

Step 1:

Clean the surface no sanding or priming. Simply wipe it with a cloth and Thinners (NOT TURPS), wait a few minutes and paint. We used Vinia Stone for the frame of the table.

Step 2:

White Wash Technique

- Mix together 1/3rd water, 1/3rd paint and 1/3rd Clear glaze (After mixing the above ingredients, if you feel the colour is too light, simply add more paint. If you feel the colour is too dark, add more Glaze Clear).
- Take a clean, colourless, damp cloth and dip it into the paint mixture and wipe the surface. One easy step for a washed, sealed surface. It will dry within seconds.

Step 3:

Let the table dry, once it is dry put the drawers back in place. Your table is now ready to be used.

So much more to life...
